## How The War Can Be Won

Posted on [January 30, 2024](#) by [jamesq](#)

U.S citizens don't understand that there is a war waging against them minute by minute. Citizens in all other countries are fighting the same war. All are fighting the same enemy. The enemy is organized and and focused. Citizens around the world are not. When compromised, they behave much like ants in a bed that somebody hacks into with a pick ax. They get disturbed and run around mindless, not knowing who struck them.

Your enemy is made up of perhaps not more than 1000 wealthy individuals around the globe. Their efforts are coordinated. They are rich and intelligent. They know exactly what they are doing. They have bought your government and are using that leverage to make slaves out of each and every one of you. Oddly, ordinary people look up to these folks, despite the fact that not one has a moral bone in his body.

Think of this group and the network they control function like an evil snake. They are psychopaths despite the fact that society thinks of them as friends.

How do you kill a snake? You cut of its head. You don't worship it like an idol.

Never before have so few been in control of so many. Politicians can't help you. The snake has more to offer them than you do. The only way to win this war is to cut off the snakes head.

They are few in number and each one of them has his own vulnerabilities. Focus on them and not politicians. They are already infected. Step one is to stop putting your faith in psychopaths. Read or re-read the following article and explain to me how it is possible for anyone other than a psychopath to win an election, Anything is possible but it is so unlikely that a non-psychopath will win an election that we can safely round off the odds to zero. Then ask, are the billionaires who control government not psychopaths also?

### [Psychopaths Presidents and You](#)

Dealing with psychopaths is surprisingly easy. Often it does require ordinary people to surrender their dignity to a lower their dignity to a level at which they are completely uncomfortable. Jesus ridiculed the scribes and Pharisees. Did Jesus lack dignity? Read it for yourself. Go ahead and read it, even if scriptures give you cooties. It is a model of natural law. If you don't believe the lies of life, these kinds of thoughts pop into your head anyway. Clearly, Jesus didn't believe lies.

### [Matthew 23](#)

**13. Here is one excerpt, .23 “Woe to you, scribes and Pharisees, hypocrites! For you tithe mint and dill and cumin, and have neglected the weightier matters of the law: justice and mercy and faithfulness. These you ought to have done, without neglecting the others. 24 You blind guides, straining out a gnat and swallowing a camel!”**

The biggest fear elected officials – including heads of agencies have , is that the public will discover that they don’t need them. Most deemed to be experts have this fear as well. Let them know that you don’t need them.

As far as global corporations are concerned, they can be managed best by running them out of business. CEO’s rank high on the list of occupations where psychopaths are over – represented , too. They will respond to ridicule , also. No point in arguing with them. They won’t debate in good faith no matter what. Let them know that you know what their companies are. Healthcare, big tech, real estate global banks and others are parasites. We live in an age of government – made billionaires. This is neither a legitimate, nor honorable way to get rich. They are free to cook their books because they own the agencies charged with regulating them. Don’t do business with them. Search with Yandex instead of Google. Yandex generates better results anyway. Finally, the stock market is rigged. The stock prices of anointed corporations are super rigged. If big tech was really doing that stellar, they wouldn’t be going to heroic measures to generate mouse clicks and to show increases in users.

None of the anointed corporations can survive a stock market crash. Their whole essence is derived from asset values and cheap money. Cheap money amounts to a subsidy. The lower one is on the income totem pole, the smaller the subsidy is. To less than middle class, cheap money amounts to a tax. The rich are fine. That is , as long as they don’t abuse ordinary people as a means of getting rich.

The mindset of the country must change if we are going to win this war. Don’t expect those who have impoverished you to get the country back on track. Stop putting your betters up on a pedestal.. They don’t belong there. They are corrupt beyond any level you can imagine. Stop promoting your own poverty.
